FortisBC construction activities

Dear neighbour,

FortisBC is upgrading 20 kilometres of natural gas line in Vancouver, Burnaby and Coquitlam. The new line will improve the reliability of the system while increasing capacity as Lower Mainland communities continue to grow.

Our crews are working in your neighbourhood

Crews have been working to install the gas line on Graveley Street from Boundary Road to Valiant Street. Construction activities are anticipated to be complete by mid-September in this area, at which point Graveley Street will be fully reopened to traffic.

Crews are going to begin installing the gas line on East 1st Ave from Valiant Street to the Trans-Canada Highway overpass. This will restrict the left hand turn lane for eastbound traffic onto Valiant Street from East 1st Ave beginning as early as August 24th. This will be in effect until likely early October. At this time, to increase the access to businesses, westbound traffic on Graveley Street from Boundary Road will be re-opened. Eastbound traffic on Graveley Street will continue to exit from Valiant Street until Graveley Street is fully reopened likely in mid-September.

Traffic control signs and traffic personnel are in place to safely direct pedestrian and vehicle traffic into nearby businesses. Businesses will remain open during construction. We are continuing to work with business owners to let them know about any changes to access.

To learn more about the project, please visit talkingenergy.ca/upgradeproject, where you can also sign up for our newsletter to receive regular construction updates. Please also feel free to call our project phone line at 604.592.7494 or send an e-mail to gaslineupgrades@fortisbc.com.

Sincerely,
